Projects

eBayung is an e-commerce web app I built from scratch using Angular 8, Bootstrap 4, NodeJS Express API & MySQL (no ORM) It covers all basic but essential functionalities of an e-commerce software.

Features includes:

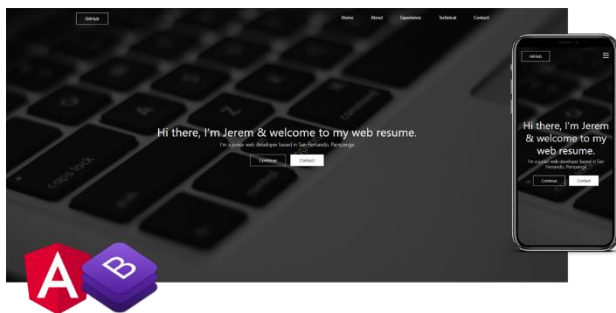

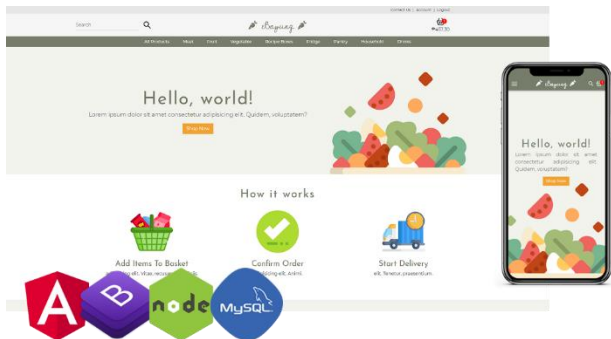

- ✓ Products category/subcategory system
- ✓ Product search
- ✓ Product sorting/filtering
- ✓ Account system
- ✓ Cart feature
- ✓ Checkout feature (via Stripe)
- ✓ User dashboard feature (change credentials, list orders)
- ...and more

Angular source code: bit.ly/2Io0r3Q

Node.js source code: bit.ly/39sAdJh

Live demo: jeremtarenio.github.io/ebayung

*PS: Only the first four categories will work as the rest are hardcoded for the sake of filling the category area of the UI

A simple personal website that serves as my web resume. Also built with Angular 8 & Bootstrap 4

Source code: bit.ly/2TGO8Vx

Live demo: jeremtarenio.github.io/profile
